IG add info.
IG add survey link.

9. AOB

Saltoun Church

DL asked whether there was any update. IG indicated that the surveyor had been out and will prepare a report. The request is for the surveyor to provide developer proposals, outlining the extent, difficulty and approximate cost of work. The surveyor has suggested that a complication to making the report will be the number of people potentially using the space and hence the regulatory requirement for bathroom space. It was agreed with the surveyor to prepare the report based on what was most challenging from a regulatory point of view, which turns out to be the requirements for a café or restaurant space.

LPP

IG noted that they would be starting surveys this week. 4 will be done throughout November. They currently have just over 100 people registered. They will collect the information then assemble. This is not a voting process - it is an information sharing process.
